

POP Enhanced Posting Flows™

for Microsoft Dynamics® GP

Simplified Line of Business Financial Reporting

The **POP Enhanced Posting Flows™** enhancement for Microsoft Dynamics GP allows for the on-the-fly General Ledger Account Segment override when entering a Purchase Order.

Segment overrides are indicated at the header level and rolled down to PO line items and subsequent receiving documents Purchases distribution types. The posting accounts are immediately updated to reflect the proper segment overrides.

Why Use?

- **TRACK PROFITABILITY**
Easily track costs of Purchase Order transactions by lines of business.
- **BETTER TRANSACTION CONTROL**
For each line of business, each account segment can be overridden to better control your transactions through to the General Ledger.

Other PTC Enhancements for Microsoft Dynamics GP available:

- Aging Pivot Table Reports™
